

**FP101**

Follower Plate (5 gallons)

**without**  
It will be hollow after sucking and also not easy to suck.

**with**  
The grease can be sucked evenly and smoothly with follower plate.

**Air Operated Fluid Pump / Grease Pump Feature**

- (1) Pump moves and oil suction are two separation system, it won't contaminating grease.
- (2) Typically used in workshops, service stations, fleet maintenance, mining, agriculture, armed forces, construction, trains, etc.
- (3) Low noise, smooth greasing, no disjointed greasing.
- (4) The pump is made of aluminum alloy by forging.
- (5) The inner diameter of the barrel is 350mm, which can accommodate 5-gallon containers of original grease from various countries.

**Usage**

- (1) General 00#~3# grease all can be infused into smoothly.
- (2) Included FP101 follower plate, can be used with higher viscosity grease or cold areas.
