

HV107
(20L) (25L Optional Accessory)

Pressurized Fluid Pump / Grease Pump Feature

- (1) Dual pneumatic cylinder structure design brings higher stability during operation, more average actuation force and smoother fluid output. Include dust cover to avoid dust or foreign matter contamination grease.
- (2) Special design of follower plate which enables the follower plate and container can be combined tighter. This can be used on any container with taper and high viscosity fluid and can further reduce the residual materials inside the container or at the bottom of container significantly.
- (3) The pneumatic cylinder auxiliary press is suitable for high viscosity grease or the grease that hard to extract by normal pump.
- (4) The pump is made of aluminum alloy by forging.

Usage

- (1) Available for normal 00#-3# grease. For special grease please contact with us.

HV103
(200L)

Model	Capacity	Air Input Pressure	Pressure Ratio	Grease Output Pressure	Deliver Rate	Hose Length	N.W.	G.W.	CUFT
HV107	20L	4~9 bar 60~130 psi	45 : 1	180-405 bar 2700-5850 psi	9 g/cycle	-	49 kgs	69.5 kgs	17.7'
HV103	200L					-	173 kgs	215 kgs	63'
